

# Tantalus Series™

## Program Colours

This small batch, artisanal collection utilizes 11 modern, neutral hues that will complement any flooring tone or vibrant accent colour.

Glacier White

Chinook

Spirit Bear

West Coast Trail

Pacific Sands

Grizzly

Oyster Mushroom

Fungi

Western Gull

Sea Otter

Orca

Due to the natural, organic characteristics of wood, the colour and grain pattern of our wood products may vary.

While our stains are applied in a controlled factory setting for consistency, differences in lighting, photography, and screen calibration can affect how colours appear digitally. We suggest ordering a sample prior to placing your order.

**Fisher is proud to distribute Western Hemlock timber products harvested in British Columbia.**

Western Hemlock timbers are renewable, light in weight and uniform in colour. Fisher Coatings is located in Squamish, British Columbia, where our backyard provides abundant inspiration for Tantalus' select colour palette. These rich neutral tones are reminiscent of the natural beauty that draws so many to the Pacific Northwest.

**We are delighted to be able to bring a piece of our home into yours.**

## Specifications

### Product

- Dimensions: 1x4 & 1x6 Tongue and Groove
- Profile: 1/8 Fineline profile
- Finish: Boards are textured and sealed prior to stain application

### Substrate

- Touch-up Kits Available

### Profiles

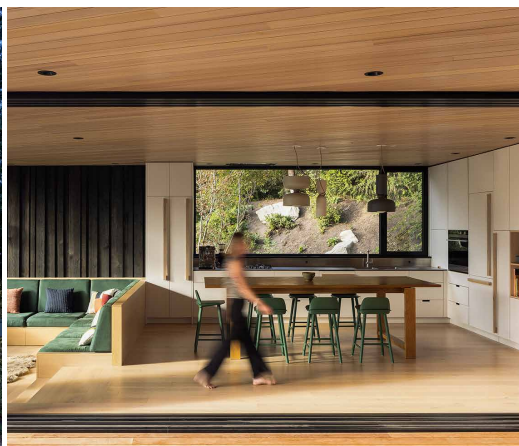

1x4 | 1/8" Fineline

1x6 | 1/8" Fineline

## Why choose Tantalus Series™ ?

- Western Hemlock is a strong, stiff and light-weight material making it good for use in horizontal components and longer spans.
- Timber is locally harvested in British Columbia from a renewable resource.
- Hemlock is light and uniform in colour with vertical grain orientation for a more consistent look overall.
- Application can extend from interior ceiling panelling to exterior soffit for a continuous look throughout the building.
- Factory applied finishes using Fishers' pre-coating system for superior coating longevity and performance.
- 11 curated program colours to choose from to complement any home design.
- Available with a Class A Fire Coating for interior projects.
- Option to finish with a Low-VOC, high solids penetrative stain made in Canada.

## ABOUT FISHER

Fisher is a pre-stain manufacturing facility based in British Columbia specializing in semi transparent coatings on both wood and fibre cement.

Originally established in 1998 as a painting contractor, Fisher opened the doors of the first pre-stain factory in 2008. Fisher currently operates in an automated manufacturing facility coating building materials for a wide range of projects and customers throughout North America.
